Sponsored Educational Resources

Family physicians come to the AAFP for resources they can trust. Make your content part of that experience.

The American Academy of Family Physicians (AAFP) represents 128,300 physicians and medical students nationwide and is the largest medical society devoted solely to primary care. The AAFP's mission is to improve the health of patients, families and communities by serving our members' needs with professionalism and creativity.

Sponsored Educational Resources on aafp.org—the official website of the AAFP—offers organizations the opportunity to share their content and research with AAFP members who come to the site seeking information and resources that allow them to continue their professional development, improve patient care and outcomes, more efficiently manage their practices and maintain their personal well-being.

Employ this dynamic content marketing tactic to engage and educate family physicians, build awareness and position your company as a thought leader. Your educational materials (long-form content, white papers, videos, etc.) are hosted on the Sponsored Educational Resources library on aafp.org and distributed through monthly eNewsletters and other member communications.

aafp.org generates more than 7.7M page views¹ a month

Why Family Physicians?²

Family physicians are the only specialists trained and qualified to treat most ailments and provide comprehensive health care for all people—regardless of age, gender or health condition. 87% of AAFP member physicians are engaged in direct patient care at least 50% of the time.

193M

ESTIMATED OFFICE VISITS A YEAR.

Millions of people trust family physicians with their health.

67M

MORE VISITS THAN THE NEXT LARGEST SPECIALTY

Family physicians treat all ages, genders and communities and health concerns.

100+

AVERAGE PRESCRIPTIONS EVERY WEEK

Family physicians help patients with every type of health condition, illness and disease.

Amplification Packages

The AAFP offers digital advertising packages that can further amplify your resources to AAFP members and other primary care providers via the AAFP's peer-reviewed journals, *American Family Physician* and *FPM*.

American Family Physician is the AAFP's evidence-based clinical review journal in primary care. The journal is published once a month, distributed to an audience of more than 169,000 primary care physicians and generates more than 3.7 million page views³ a month.

FPM is the official practice improvement journal of the AAFP, focused on what family physicians need today: practical, peer-reviewed advice on patient care and practice management. *FPM* eNewsletters are distributed to an average of 96,000 recipients per week, and the *FPM* website has an average of more than 260,000 page views⁴ a month.

Contact us for information on amplification packages.

Other AAFP Activities to Drive Engagement

In addition to the benefits outlined as part of the Sponsored Educational Resources base package, the AAFP regularly promotes the Sponsored Educational Resources library to its members. Channels used to drive traffic to resources include:

- Promotion in *Family Medicine Today*, a daily eNewsletter distributed Monday–Friday to more than 57,500 highly engaged AAFP members
- Digital advertising in the AAFP's peer-reviewed journals, *American Family Physician* and *FPM*
- Promotion of the Sponsored Educational Resources library at the AAFP's premier events, such as Family Medicine Experience (FMX), FUTURE (formerly National Conference) and the Physician Health and Well-being Conference
- Cross promotion via other sections within the aafp.org website
- Additional promotion of the Sponsored Educational Resources library through the AAFP's various channels
